Lung Cancer Summit

Have you [registered](#) for the Lung Summit yet?

What: The lung summit is a clinician-led forum for reviewing data about diagnosis, treatment and system factors impacting care of lung cancer patients in Victoria. This is the second of a series of tumour specific summit meetings hosted collaboratively by Victoria's Integrated Cancer Services and Cancer Council Victoria.

Why: Identify priorities for improving outcomes for Victorians with lung cancer.

Make a difference by contributing your expertise to help shape future lung cancer care in Victoria

Discussion topics:

- Delays in diagnosis
- Multidisciplinary approach to treatment
- Referral pathways to specialist care
- Proportion of patients receiving active treatment for lung cancer
- Access to palliative and supportive care
